Education

PhD in Electrical Engineering In progress
Department of Electrical and Computer Engineering,
University of Windsor, Windsor, Ontario, Canada
Expected completion: May 11, 2026

- **Dissertation:** Non-Adversarial Feature Synthesis and Few-Shot Inspired Frameworks for Zero-Shot Learning

Master's in Computer Science and Technology 2021
University of Jinan, Jinan, Shandong, China

- **Thesis:** Graph Matching Algorithm for Image Matching Based on Feature Enhancement and Fusion

Research Experience

PhD Researcher Sep 2021 – Present
Centre for Computer Vision and Deep Learning, University of Windsor, Canada

- Developed and maintained workflows to support research activities.
- Analyzed system outputs and documented results to support evaluation and reporting.
- Supported research operations by maintaining software environments and resources.
- Contributed to peer-reviewed publications based on data analysis and system evaluation.

Lab Manager Feb 2023 – Dec 2024
Centre for Computer Vision and Deep Learning, University of Windsor, Canada

- Coordinated access to laboratory systems and computing resources.
- Supported secure and reliable operation of shared systems and software environments.
- Maintained documentation to support consistent system use and operational continuity.

Graduate Research Student (MSc) Sep 2018 – Jul 2021
Shandong Provincial Key Laboratory of Network-Based Intelligent Computing, University of Jinan, China

- Cleaned, organized, and validated datasets to support analysis and reporting.
- Implemented feature extraction, and model evaluation methods.
- Compared alternative approaches through structured experimentation and documentation.

Academic Teaching Experience

Lecturer Jan 2012 – Sep 2016
Faculty of Engineering,
University of Development Alternative, Bangladesh

- Taught various undergraduate courses including Introduction to Programming, Computer Networks, and Image Processing.
- Created syllabus, learning materials and activities, and assessment tools.
- Student counseling.
- Served as a member of Academic Committee and Examination Committee.

Additional Related Teaching Experience

Teaching Assistant
University of Windsor
Various terms

- Supported delivery of technical courses including Image Processing and Computer Networks.
- Assisted with lab activities involving system configuration, algorithm implementation, and data analysis.
- Communicated technical concepts clearly to students with diverse backgrounds.

Technical Skills

- **Application Development:** Python scripting, workflow design, testing and validation
- **Data Analytics:** Data cleaning, analysis, visualization, reporting
- **Tools & Technologies:** Python, MATLAB, SQL, numerical computing libraries
- **Security Awareness:** Responsible data handling, access control practices
